

SHAT-R-SHIELD'S LED WALL PACK FIXTURES are direct replacements for antiquated light sources used for outdoor security lighting in commercial and industrial applications. Replacing 150W to 400W HID lamps, the classic design of these fixtures provides easy installation when replacing existing wall packs with the same footprint.

- Available in full cutoff and forward throw models
- High efficiency design-- up to 118 lumens per watt
- Dark brown, corrosion resistant die-cast aluminum housing
- Low glare, uniform illumination
